SKILLS

- **Languages:** C, C++, C#, JavaScript, Python
- **Frameworks:** HTML and CSS, NodeJS, React
- **Tools/Platforms:** Figma, Unity, Vercel, Framer, Canva
- **Soft Skills:** Problem Solving, Team Player, Adaptability, Flexibility, Leadership, Design Thinking, Communication

PROJECTS

NutriFit – Smart Nutrition and Fitness Tracking App Design | Behance

Aug 2025 – Ongoing

To create a mock startup plan and design a personalized nutrition and fitness planning application for daily health management as a part of product line development of the startup. Designed IA, userflows, and high-fidelity screens focusing on goal tracking, meal logging, and habit-building features and provided mock business plan and revenue models. Produced a structured design foundation with consistent UI patterns, enabling seamless continuation for prototype development enabling efficient user experience within app.

Tech Stack/ Tools: Gemini API, HTML, CSS, JavaScript

BuckAI - Budget Planning Chatbot | Github

Oct 2025 – Nov 2025

To build a chatbot to help manage monthly expenses through an interactive AI-driven budgeting assistant.

Built a conversational chatbot using Gemini API with custom prompts, expense categorization, and real-time budget tracking logic.

Delivered a functional, responsive budgeting assistant accessible via browser, improving user clarity on spending patterns.

Tech Stack/ Tools: Gemini API, HTML, CSS, JavaScript

Emoji Match Card Game | Github

Jul 2025 – Aug 2025

To Develop an interactive memory game (card matching) with C#, using Singleton Design Pattern.

Implemented different manager scripts like UIManager & GameManager architecture for cleaner code separation and optimized game code logics to smoothen out animations and created bug free environment during gameplay.

Helped understand the process of game design and development and hone each skill clearly.

Tech Stack/ Tools: Unity, C#, Figma

StyleUp – AI-Driven Fashion App | Behance

Feb 2025 – May 2025

To enhance personal styling by recommending outfits using AI-based body and wardrobe analysis.

Designed and documented an AI-based clothing recommendation app with AR try-ons and wardrobe scanning. Conducted UX research, usability testing, and information architecture design for app workflows.

Built interactive prototypes in Figma which can be tested with users trying improving task completion rates.

Tools: Figma, Optimal Workshop, Moqups.com

BSNL Website IA Redesign | Behance

Feb 2025 – May 2025

To improve user navigation on the BSNL website by addressing cluttered structure and confusing categories.

Conducted IA analysis, user research, sitemap restructuring, and redesigned hierarchy for simplified browsing.

Delivered a cleaner, more intuitive IA model improving discoverability and reducing navigation depth.

Tech Stack/ Tools: Unity, C#, Figma

Crystal Space – Home Space Design App | Behance

Feb 2025 – May 2025

To help users plan, visualize, and organize home interiors digitally before execution. Designed concept screens, spatial layout flows, user journeys, and UI components for room-planning features.

Developed an interactive visual framework mockup for home organization, suitable for development or prototype testing.

Tools: Figma

Populus – Discussing Population And its effects | Github

Aug 2023 – Oct 2023

To create a website which explained the growth of population in various species across the world and their effects.

Explained the growth effecting the ecosystem and food web, and discussed its solutions.

Gained knowledge which could be implemented in real life at small scale and increased usage of web languages like to produce effective web design.

Tools: HTML5, CSS, VS code.

TRAINING

Game Development using Unity and C# | CipherSchools | Certificate

Jun 2025 – Aug 2025

Completed a two-month training on *Game Development using Unity and C#*.

Focused on 2D and 3D game design, UI/UX integration, and modular C# scripting.

Learned Game design and development through a hands-on project — *Emoji Card Memory Game*.

Tech stacks used: Unity, C#

CERTIFICATES

- | | |
|--|---------------------|
| • Game Development using Unity & C# Cipherschools Link | Jun 2025 – Aug 2025 |
| • Object Oriented Programming with C++ iamneo Link | Aug 2024 – Dec 2024 |
| • Essential Technologies for Business edX – IBM Link | Jan 2024 – Jun 2024 |
| • Responsive Web Design freeCodeCamp Link | Aug 2023 – Oct 2023 |

ACHIEVEMENTS

- | | |
|--|----------|
| • Positioned 1st in Forming Arguments – Debate Competition (LPU) | May 2024 |
| • Attained 2- STAR Rating in Python on HackerRank Platform | Oct 2023 |

EXTRA-CURRICULAR

- | | |
|---|----------|
| • Worked as Graphic Designer in E-Cell LPU | Sep 2024 |
| • Led Club Deloitte LPU as President of the club | Oct 2023 |

EDUCATION

- | | |
|---|---|
| • Lovely Professional University
<i>Bachelor of Technology - Computer Science and Engineering; CGPA: 8.51</i> | Phagwara, Punjab
Aug 2023 – Present |
| • Page Junior College
<i>Intermediate; Percentage: 90.9%</i> | Hyderabad, Telangana
May 2021 – Apr 2023 |
| • Narayana E-Techno School
<i>Matriculation; CGPA: 10.0</i> | Hyderabad, Telangana
May 2020 – Apr 2021 |
